

DEMENTIA, DEVELOPMENTAL NEUROPATHOLOGY AND SCHIZOPHRENIA SATELLITE MEETINGS

31 AUGUST - 2 SEPTEMBER 2000

The common first session of the Satellite Symposia will commence at 2.00 pm on Thursday 31 August 2000.
The provisional programme is as follows:

- 2.00 – 3.00 **Jeffrey Golden** (Pennsylvania School of Medicine)
Developmental neurobiology – 1
3.00 – 4.00 **Colin Blakemore** (Oxford)
Developmental neurobiology – 2
4.00 – 4.30 Tea
4.30 – 5.30 **Thomas Arendt** (Leipzig)
Dementia in the context of developmental neurobiology

The provisional programme for the rest of the Schizophrenia Symposium is as follows:

Thursday, 31 August 2000

- 5.45 – 6.35 **Paul Harrison** (Oxford)
Certainties and uncertainties in the neuropathology of schizophrenia
6.35 – 7.05 **Daniel Weinberger** (NIMH)
The neurodevelopmental hypothesis of schizophrenia

Dinner – St Anne's, followed by a song recital by Juliet Oppenheimer

Friday, 1 September 2000

- 8.30 – 9.15 *Speaker to be confirmed*
Can we locate a primary site of pathology in schizophrenia?
9.15 – 10.00 **B Bogerts**
Significance of limbic system pathology
10.00 – 10.45 **Tim Crow** (Oxford)
Alterations involve highly evolved cortex and cerebral asymmetry
10.45 – 11.15 Coffee
11.15 – 11.45 *Speaker to be confirmed*
A case for primary brain stem pathology
Do structural changes provide clues to aetiology?
11.45 – 12.25 **Jack Price** (Institute of Psychiatry, London)
Are genes that control development at fault?
12.25 – 1.05 **Steven Arnold** (Pennsylvania School of Medicine)
Aspects of synaptic connectivity/maturation that are altered in schizophrenia
1.05 – 2.10 Lunch
2.10 – 2.35 *Speaker to be confirmed*
Role of obstetric complications
2.35 – 3.05 **Jeanne Bell** (Edinburgh)
Neuropathologist's view
3.05 – 3.30 **R Yolken**
Role of infection
3.30 – 4.00 **Ian Everall** (Institute of Psychiatry, London)
Neuropathologist's view
4.00 – 4.30 Tea

Future studies of schizophrenia

- 4.30 – 5.15 **E G Jones** (Davis, California)
Where else should we be looking?
5.15 – 6.00 **R C A Pearson** (Sheffield)
What should we be looking for and what tools should we be using?
6.00 – 6.30 Discussion
7.30 for 8.00 Dinner, Somerville College

Saturday, 2 September 2000

- 9.00 – 12.30 Free communications
Contributions from young speakers are particularly welcome, each with 15 minutes followed by 5 minutes discussion. Please fill in an **abstract form** and return it with your **registration form**.
12.30 – 1.00 General discussion with rapporteur **Dan Perl** (Mount Sinai School of Medicine, New York)
on report about the meeting to Congress.
